

EVOLVING • BY DESIGN •

Hello!

I'm Monica, Founder & CEO of Evolving By Design- an interior design practice creating supporting spaces for your life changes. I focus on executives who want comfort in their space and recognize that rest is a form of productivity and necessary to live an impact-driven life.

I have merged my corporate experience as a designer for one of the largest premier design companies in the world for top executives with over 10 years of entrepreneurship experience.

Operating a profitable and award-winning business in Los Angeles with a childhood spent in the family construction business gives me the ability to design with an intimate understanding of the built environment.

I travel to experience our world through human connection and it's a big part of what fills my cup of joy; along with gardening, baking, camping, chips & salsa.

My design practice is currently offering interior design services, guidance through private design session at home or virtually, project management for remodels, home staging and I am sought after as a conference speaker to help your audience connect with their physical space during change.

Conference Speaker topics have been directed to creating change in your space with guidance:

How to and why it's important to your health

Recreating Your Executive Presence at Home

The importance of space as a reflection of who you are

How environment influences your mood and ability to bring your best self to the table

I look forward to working with you in creating your ideal space,

Monica Viramontes
